Off-line Voice A60 Lamp

CE CB

Voice control

180°

Introduce :

No need WiFi, no need tedious setup, install like a normal light bulb, power on and then turn on the switch, tell your light to turn on or off or change brightness. When you say "Hello light, turn on the light", the light bulb immediately turns on; Or other simple voice commands that have been set, the lamp can quickly understand and implement it. Perfect for decorative and general lighting applications and creates a warm ambience similar to traditional lamps. Great replacement lamp for traditional incandescent lamp. Up to 85% energy saving compared to incandescent lamps.

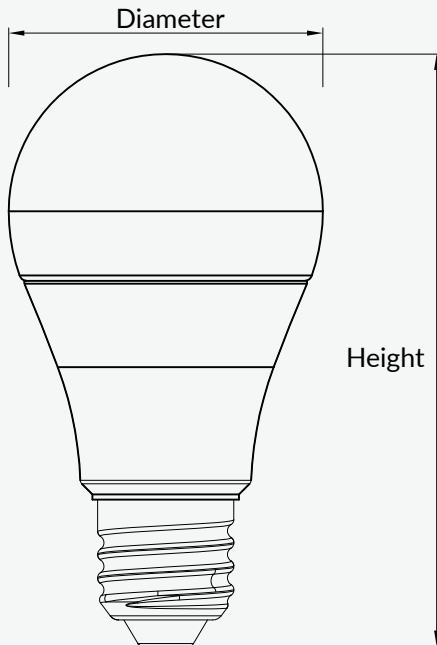

Features & Benefits :

- Remote voice control, no manual adjustment required.
- 5 levels brightness adjustment.
- No Flicker and Buzzing, comfortable for your eyes, provides a comfortable, stress-free atmosphere.
- CRI80, allowing you to enjoy the most realistic objects' color. provides a comfortable, stress-free atmosphere.
- Up to 85% energy saving, less heat output and extremely long lifespan 50000hr.
